PERSONAL PROJECTS

1.Quick Support:

Description: I have created a website called Quick Support, which helps students, homemakers, IT professionals, farmers, government employees, teachers, and others by providing secondhand items or products for rent at the lowest prices for a limited duration. This platform is designed to benefit everyone, offering an affordable solution for those who need temporary access to various items "**Just use and return**".

Technologies Used: HTML5, CSS3, Javascript, JQuery, Bootstrap, React, Node.js, Express.js & MongoDB.

2. Bharatiya Food Court:

Description: Bharatiya Food Court brings together the most famous dishes from every Indian state, offering a unique and delightful taste experience. We ensure our food is fresh, chemical-free, and made with the utmost care for quality.

Technologies Used : HTML5, CSS3, Javascript, Bootstrap, React

3. Bhandara:

Description: Bhandara connects people to find free food services (Annadanam) in their area, anytime. User can add event locations and photos, while registered members receive timely updates and notifications about upcoming Bhandaras.

Technologies Used : HTML5, CSS3, Javascript, Bootstrap, React
